## SUMMARY

Skilled Full Stack Developer with over 3 years of experience specializing in MERN. Proficient in React JS, Node.js, Express.js, and various backend technologies. Passionate about creating exceptional user experiences and optimizing backend performance. Recognized for exceptional skills and leadership.

---

## TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React JS, Angular, React Native, Bootstrap, Ionic Framework, Redux, Regular Expression
  - **Backend:** Node JS, Express JS , Azure Function
  - **Database:** MongoDB, MySQL, PostgreSQL, Snowflake, Redis
  - **Cloud Services:** Azure Functions, Azure Blob Storage, Azure Queue, CI/CD
  - **Other Tools:** Talend ETL, Power BI, Android Studio, SendGrid, Git
- 

## EXPERIENCE

### Full Stack Developer – MERN

**Paripoorna Software, Bengaluru, India** *Nov 2021 – Nov 2024*

### Roles and Responsibility

- Developed modern, user-friendly web interfaces with React JS, prioritizing exceptional user experiences.
  - Implemented robust backend solutions using Node.js, incorporating server less computing for seamless third-party integration.
  - Resolved server downtime promptly by optimizing code, resulting in improved application performance and reduced API response times.
  - Managed product-related data efficiently with MySQL and MongoDB, ensuring streamlined storage and retrieval processes.
  - Conducted thorough code reviews to maintain high-quality code standards and adhere to best practices throughout development.
  - Facilitated customer calls and requirement discussions, ensuring alignment with project objectives and client needs.
  - Led and coordinated team efforts, ensuring adherence to deadlines and successful project completion.
  - Reviewed business requirements and estimated efforts for application design, contributing to successful project deliveries within set timelines.
  - Implemented reusable components and server-side rendering techniques for efficient coding and improved application performance.
-

## PROJECTS

### 1. Fintech Website

- Developed a Fintech web and mobile application with integrated Loan Origination System (LOS) and Loan Management System (LMS) to enable efficient loan.

**Technology:** React JS, Node JS, TypeScript, MongoDB, MySQL, Azure Functions, Redis, JWT, Git, AWS, Azure

### 2. E-commerce Website

- Developed a Full-Stack E-Commerce platform for motor products, featuring real-time inventory management and a user friendly interface to enhance customer experience.

**Technology:** React JS, Node JS, MySQL, Redis, Bootstrap, SendGrid, Azure

### 3. Depot Management System

- Developed a depot management system for efficient shipping container management, streamlining tracking, scheduling, and resource allocation to optimize logistics and improve operational efficiency.

**Technology:** Angular, TypeScript, .Net C#, PostgreSQL, IIS, JWT, Git

---

## EDUCATION

**B.Com with Computer Application (B.Com CA)**

**National College, Trichy**

*July 2018 - Jun 2021*

---

## CERTIFICATIONS

- Full Stack Engineer, Magentas (2023)
- 

## HONORS & AWARDS

- Go Getter Award**

Recipient of the prestigious Go Getter Award from Paripoorna Software, recognizing exceptional skills and exemplary leadership within the team (2023).

---

## SOFT SKILLS

- Excellent written and verbal communication
- Strong attention to detail
- Problem-solving capabilities
- Team player with flexible working style
- Capable of working unsupervised
